

How Innoplexus Empowers Your Custom Insights Ecosystem

Our innovation-led technology development resulted in 100+ patent applications including 10 grants

HOW WE DIFFER?	OUR PROPRIETARY TECHNOLOGY?	HOW IT WORKS?	
Our Artificial Intelligence understands Life Sciences	AI & Machine Learning Ontology	<p>Our ontology is self-learning, creating an auto scaling graph</p> <ul style="list-style-type: none"> • 31+ Million biomedical terms • 1+ Trillion data connections 	<p>We configure AI models over this Ontology creating an unbiased data set</p> <ul style="list-style-type: none"> • Life science language processing™ instead of NLP • "Cancer" is big deal in natural language, commonplace in pharma
Our systems process Unstructured Data	Computer Vision Entity Normalisation	<p>We do not require data in templates</p> <ul style="list-style-type: none"> • Archives, congresses and other data in PDFs/Images • Understands page layout, structure and separates tables & graphs 	<p>Our algorithms connect records across scattered data sources</p> <ul style="list-style-type: none"> • Covers name variations & synonyms. John D Smith vs Smith, JD • Multiple things referred by with same name. e.g APR
Our architecture connects Enterprise Data	Blockchain Network Analysis	<p>We integrate enterprise data securely</p> <ul style="list-style-type: none"> • TruAgent™ makes data searchable without storing the original • Ability to integrate with all third-party and enterprise data 	<p>Our setup generate insights on the fly</p> <ul style="list-style-type: none"> • Large scale network of information from public & enterprise • Continuous data integration and real-time insights
